EAGLE PAPER

APRIL 2021-MARCH 2023

PROPERTY OF EAGLE CHARITY FOUNDATION

Multinational community

TABLE OF CONTENTS

EAGLE CHARITY FOUNDATION

Eagle Charity Foundation (ECF) is a community charity project of cosmopolitan individuals from multinational heritage who believe in the use of technological and digital financial skills to secure human lives and birds to make the world adorable and better place to live. ECF believes in democratic governance and social economic system where every living creature has the liberty to interact with the ecosystem and have access to quality life without fear of victimization or extinction. We advocate for peaceful coexistence between man and birds. With man, the world is beautiful, with bird the world becomes a melody.

MISSION : To leverage on technological opportunities and offer protection to the less the privilege creatures threatened by the harsh economic and environmental conditions

VISSION: To develop multiple income generating platforms to the general populace through community collaborations and technological partnerships to lift many from the dungeon of poverty and save endangered birds from extinction.

INTRODUCTION TO EAGLEBIT

Eaglebit is the official blockchain project of ECF designed to give back to the society through liberal system of governance. It is a multi-utility democratic token introducing high level of frictionless tokenomics to address the challenges of liquidity pool and integrate NFT market place implementation.

Eaglebit is a community governance token with democratic economy that allows every user the freedom to interact with the smart chain under binance ecosystem with multiple options of utility. It is designed to benefit every holder through the soft staking free economy by using the automatic reflection mechanism of transaction fees.

EBIT SMART CHAIN

The project is built under BSC platform with proposed cross-chain linkage integration down the roadmap. The total supply of EBIT is fixed at 1 quadrillion. The quadrille supply is democratically minted to reach every community member and to ensure no member of the community is left without a share in the governance. In order to add values to community holdings and create scarcity, 50% of the total supply will be burned immediately before the commencement of presale. The remaining will be up for presale and project marketing, including exchange listings. Any volume left from presale,once the soft cap is reached will be burn or distributed subject to community vote.

The liquidity will be locked for period of 10 years with ownership renouncement. Every transaction that takes place under the Eaglebit platform will be to the benefit of the holders since 5% tax fee will be deducted for each transaction and distributed, 3% will go to the liquidity pool for liquidity sustainability while 2% will be distributed to holders.

As a governance token, every holder has a stake in decision making regarding the development of the token. Community voting will steer the direction of every action towards the success of EBIT. As stated, a percentage of the transaction fees under the Eaglebit platform will be used for governance rewards. And every community holder participating in voting will earn rewards depending on position in holders hierarchy.

EBIT is a product of BSC

TOKENOMICS

It is a deflationary token programmed with a reflective idea to favour the community holders and sustain liquidity pool.

Eaglebit share the synopsis of animal token to represent the foundation from which birds originated but with unique architectures that differentiates it from the everyday meme coins.

TOKEN ALLOCATION

The burning of the 50% of the total supply is a deceision reached by the community team under ECF to uphold the deflationary mechanism of the native token EBIT, to create scarcity and progressively increase the value of Eaglebit overtime.

The 40% of the remaining 50% will be up for presale, which will be on first come, first serve basis to ensure every community member have the democratic liberty and equal right to enter the presale.

As a token developed under charity foundation, we strongly believe in giving back to the community to save humanity. On this note, the project has allocated 5% of the total supply for airdrops to support community platforms.

The value of EBIT token to the community holder is our number one priority,hence the introduction of multi-utility of Eaglebit. To ensure availability of funds to give the holders the best, we allocated 5% of the token to marketing and promotion targeting celebrities and top crypto sites.

All funds will be channelled towards listings and development of project usecase. No community team allocation.

Token Distribution

**ECF scrutinized token distribution**

UTILITY

EBIT pride itself with multiple use case in community staking, NFT implementation, Eagle museum, game app, lottery, pocket wallet, launching pad, project auditing, crypto mentoring academy, Eagle charity, a foundation platform for donation to safe endangered bird species from extinction and support for less privilege. And the proposed EaglebiteX exchange with zero fee for EBIT holders. The detailed use case of Eaglebit are outlined.

Soft Staking

The portfolio of every holders of EBIT token increases by holding any volume of the token, and this is without any locking period. The holders can decide to liquidate stake with the accrued benefits without severance fee. This is the conerstone of Eaglebit Defi, where the native token can be used for staking and liquidity pool maintenance. Holders who hold EBIT will be rewarded with platform fees in the form of EBIT token, so the longer every user hold, the more the EBIT token they earn.

The soft staking will progress to hard staking economy that will enable NFT farming once implementation is integrated. The users will be able to stake EBIT tokens to farm NFTs and holders will exclusively receive NFT drops from collectibles in the future.

The exponential growth every holders experience by just holding EBIT token. The beauty of token built on reflection idea.
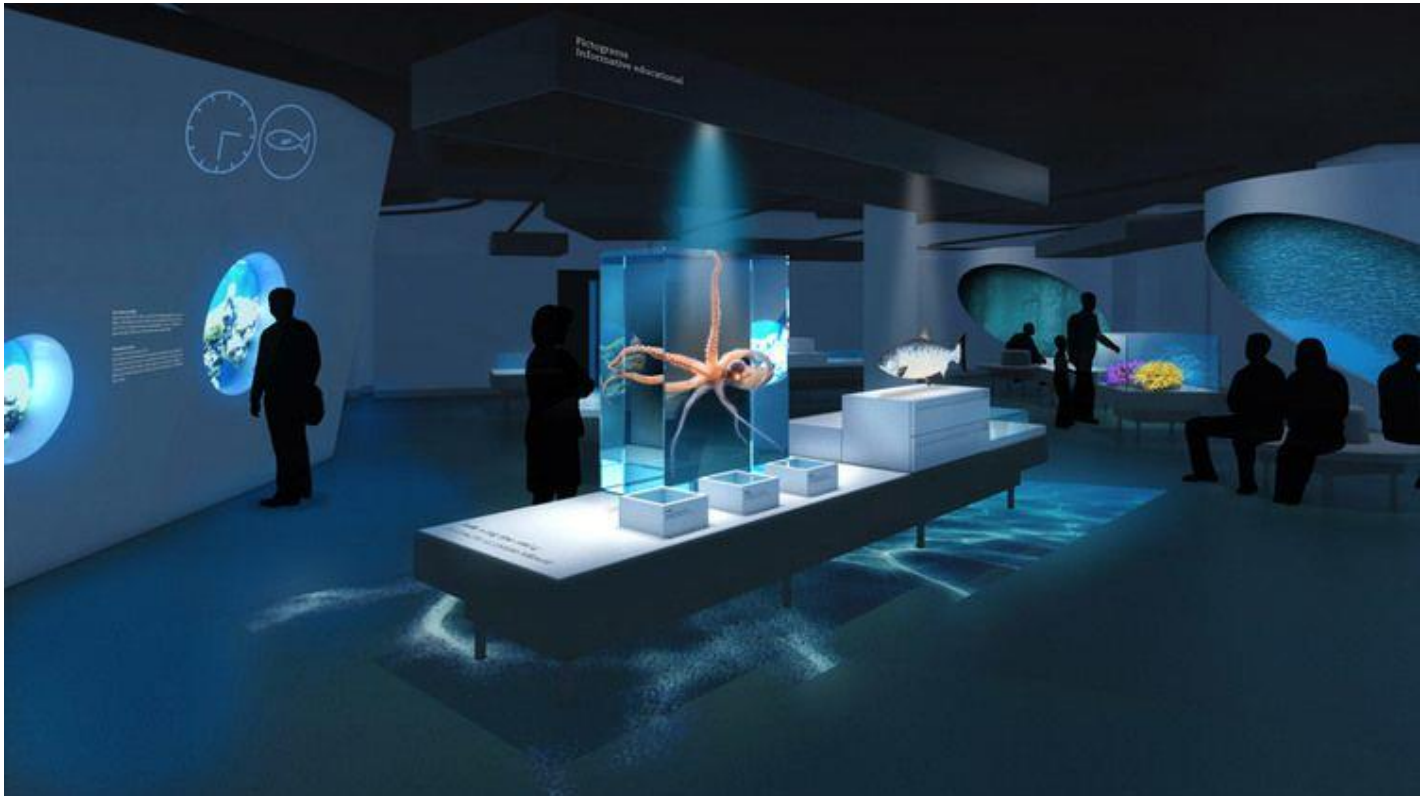

NFT Market Place

Eaglebit promises the integration of NFT marketplace into the EBIT utility platform whereby the EBIT tokens are used as a currency to trade art collectibles. You will be able to sell your NFTs for BNB or any other conventional crypto, but your offers will not be prior and you will have to pay a fee. If you are selling your NFT tokens in exchange for EBIT tokens, all you have to do is own a certain amount of tokens on your wallet to pay no fees whatsoever. In case you chose the number one option, you will have to buy EBIT tokens and use them. Half of the used tokens will be burned and the other half will be added to the liquidity pool on Pancake Swap. With this the liquidity prob faced by other tokens will not surface with EBIT multiple liquidity options.

Eaglebit NFT wonder

Eagle Museum

The digital museum of ECF we serve as the historical data base for community members and the general public. Researchers, adventurers and fun lovers will be able to subscribe to the storage deposit of the museum to access rich historical contents. The subscription to contents will only be in EBIT token. Any token used in subscribing to the the Eagle museum will be burned automatically and taken out of circulation to create scarcity of EBIT token and add values to community holdings.

ECF historical prototype museum

Eagle NFT Lottery

With the expansion of EBIT-NFT Marketplace and growth in utility, we will add an NFT lottery. To participate in the lottery, you will have to buy tickets with EBIT tokens. Multiple tickets are allowed in order to increase your chances to get a lucky number. The half of the tokens used in the purchase of lottery tickets will be burned and another half will be added to the liquidity pool on PancakeSwap. Every next ticket purchased will be 5% more expensive than the previous one. You will get a chance to win 1 of 5 unique NFT collectibles drawn by our artists on the lottery platform. Liquidity sustainability is the pride of Eaglebit.

The NFT portrait representing the collectibles lucky winners stand to win

EAGLEBITEX

The project will be incorporating a centralize community exchange with extension of decentralize finance known as Eagleswap. This will be the first cryptocurrency market with integrated CEX and DEX market co-existing in a single platform. All EBIT holders operating account under Eaglebitex will trade with zero fees and receive drops from every newly lauched projects. Traders who pay transaction fees with the option of EBIT token will receive 20 % discount.

Every holders of EBIT token who refers anybody to the platform will get 10% of the transaction fees each time the person initiate any trade. This is designed to profit all community members with stake in Eaglebit, and funds generated from the platform goes straight to the foundation account to promote charity work and protect endangered bird species.

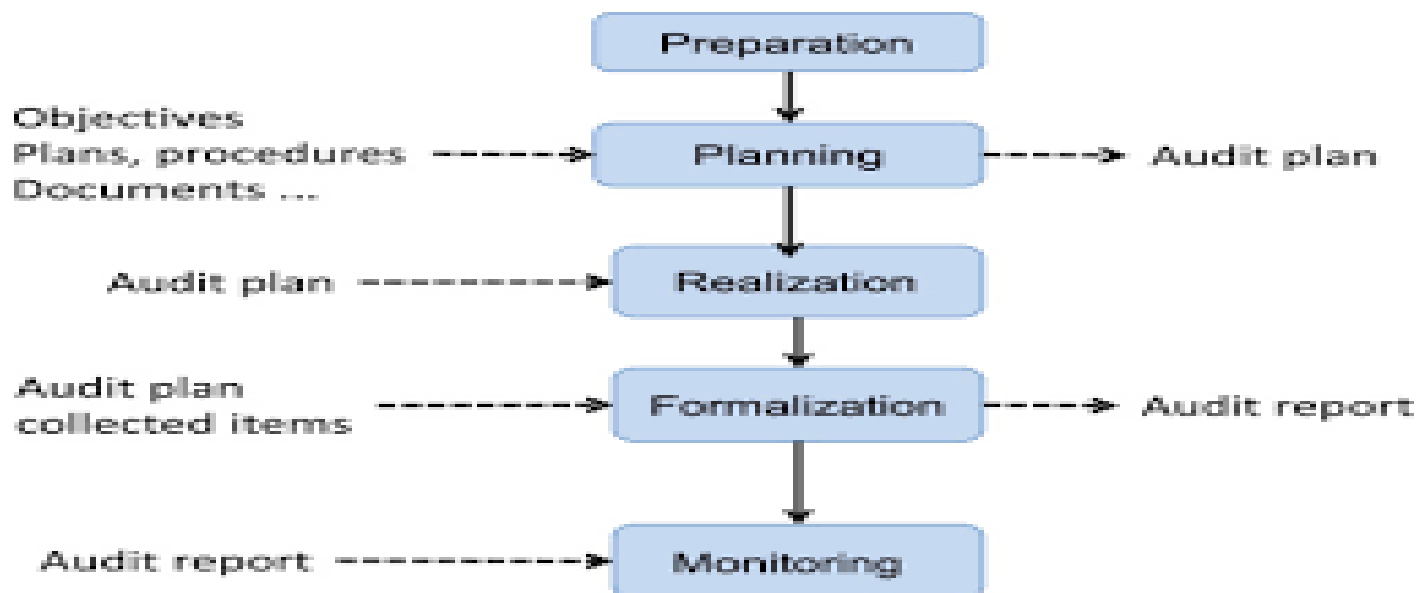

Eaglebitex: The first community CeDex

EAGLE PADIT

A launching pad for new tokens. This is a platform for auditing and launching new certfied cryptocurency projects. With the community and the publicity Eaglebit promises to attain, many infant projects will definitely find us attractive to launch their ICO and IDO on our platform. EBIT will be used as staking token by any user prior to participating in projects promoted by the platform.

ROADMAP

The roadmap and plan of Eaglebit has been designed till 2023. And project plan will be revised after then. The mapped out roadmap is also subject to change based on community demand and project success.

2021 Q1

-Development of ideas | Project planing | | Community composition | -Project terms of reference

2021 Q2

-Website development | -Deployment of token | -Presale | -Community marketing | -Coingecko and CMC listing | pancakeswap listing

2021 Q3

-NFT Implementation | -Drops for Holders | -Medium volume exchange listing | -Celebrity marketing-phase II | -Eagle Lottery

2021 Q4

Development of Eagle pocket wallet | -Eaglebit Academy | -Eaglegame app | - Launching pad and token audit

2022

- Development of EaglebiteX | -Cross-chain token linkage | - Top exchange listing | - Eagle step down

2023

-Partnership & blockchain expansion. | -Community vote.

PRESALE

To raise fund to support the ECF dream of giving back to the society, the community team decided to allocate 40% of the total EBIT supply to the public throug presale.

The presale will last for only 3 days and it will be on first come, first serve basis with progressively diminishing bonus percentage. No reserve or private sale. All community members have equal opportunity to enter within the three-day period. Any community member who miss out the presale can purchase from exchange. The token will be listed on pancakeswap immediately after presale and other exchanges in few days.

MARKETING ,PROMOTION AND PARTNERSHIPS

Eaglebit project is coming with a solid marketing team and community. The marketing plan is going to be in phases, starting with community marketing involving notable crypto groups and channels on telegram. This will be followed by paid promotions using crypto celebreties on various social medial platforms and cryptocurrency news house.

Promotions involving regular community giveaways on twitter, community drops and contest on various telegram groups to publicise the project is a priority even before the commencement of presale. Every community holder should have a reason to smile by identifying with ECF.

We are strategically partnering with some good projects and this will be rolling out as development progresses. Few partnerships will be announced before the first exchange listing.

Eaglebit marketing strategies

TEAM MEMBERS

The ideological concept of Eaglebit is from a group of multinational and humanitarian socialites with 5 to 7 years of experience in blockchain technology, digital marketing, e-commerce and charity works, who pooled resources together to develop a community project that will give back to the society. The government crackdown on cryptocurrency activities from development nations is a limitation to identity of members but social medial handles of various members will be released based on legal advice. The team is highly spirited individuals craving to make a difference with the community support.

The team to beat

COMMUNITY

Eaglebit believe in the power of the community, hence we hold our community at high esteem and strive to give them the best to actualize the vision of ECF, lifting many from poverty by presenting income generating opportunities.

The community is our backbone,and without the them we cannot do it alone. So EBIT is 100% community driven and we count on the community for the succes of the project.

The strength of Eaglebit

SOCIAL MEDIAL INTERACTION

We so much believe in the opportunitie with digital space which social media is at the forefront. We leverage on the power of social media to reach out to community to offer opportunities, hence our presence across all the medial platforms.

The following are our official social medial handles. The community can always contact us through any of these platforms.
